### DEPARTMENT OF PUBLIC WORKS, ROADS AND INFRASTRUCTURE

### **TERMS OF REFERENCE**

Tender No: LDPWRI-ROADS/20468 APPOINTMENT OF PROFESSIONAL SOCIAL CONSULTANTS FOR ROAD MAINTENENCE PROJECTS IN WATERBERG DISTRICT FOR A PERIOD OF 36 MONTHS

### APPOINTMENT OF PROFESSIONAL SOCIAL CONSULTANTS FOR ROAD MAINTENENCE PROJECTS IN WATERBERG DISTRICT FOR A PERIOD OF 36 MONTHS

### 1. INTRODUCTION AND BACKGROUND

The Limpopo Department of Public Works, Roads and Infrastructure (LDPWRI) is charged with the mandate of road maintenance across 05 Districts with 36 Cost Centres across the Province. The Department is responsible for carrying out the following routine maintenance activities but not limited to blacktop patching, repair of potholes, edge breaks, and crack sealing and drainage and road reserve maintenance.

The National Department of Transport (DoT) launched the S'hamba Sonke Programme (SSP) in April 2011, dedicated to road maintenance on secondary roads and rural roads, with particular emphasis on repairing potholes, using labor-intensive methods of construction and maintenance.

The SSP, through the Provincial Roads Maintenance Grant (PRMG), consists of three budget components. The largest component enables provinces to expand their maintenance activities. The other components allow provinces to repair roads damaged by floods and to rehabilitate roads for coal haulage activities.

The Programme provides a set of principles to guide the prioritization of infrastructure investments to maximize the economic impact and development multipliers for maintaining and upgrading South Africa's provincial road network. Furthermore, it introduces road construction and maintenance methodologies that are specifically designed to create jobs, to support enterprise and co-operative development and to build the productive assets of poorly resourced communities on an unprecedented scale.

The LDPWRI has committed itself to utilize the infrastructure investments to maximize employment opportunities and improve livelihoods of disadvantaged people in the Province. As a derivative of the S'hamba Sonke Programme, the Department implements the household based routine maintenance projects to address backlog of road maintenance by improving the livelihood of rural communities. These projects are implemented by in-house road maintenance programme and the household based routine maintenance (contractors) each financial year and are linked to Local Municipalities.

The minimum targeted number of Work Opportunities (WO) for Household Based Routine Road Maintenance Project is 250 per each local municipality.

The department invites proposals from Professional Social Consultants that can render social facilitation services to Household Based Routine Road Maintenance Projects implemented by the Department across the local municipalities for a period of 36 months.

APPOINTMENT OF PROFESSIONAL SOCIAL CONSULTANTS FOR ROAD MAINTENENCE PROJECTS IN WATERBERG DISTRICT FOR A PERIOD OF 36 MONTHS

### 2. LEGISLATIVE FRAMEWORK

The following legal instruments guide the implementation of the Household Routine Maintenance:

- 2.1 Code of Good Practice, Notice No. 129 issued by the Minister of Labour in terms of the Basic Conditions of Employment Act, 1997 as amended;
- 2.2 Ministerial Determination 4: Expanded Public Works Programmes, Notice No. 347 issued by the Minister of Labour in terms of the Basic Conditions of Employment Act, 1997 as amended;
- 2.3 General Conditions of Contract for Construction Works Second Edition (2010) (GCC).
- 2.4 Standard specifications for Roads and Bridges Works for State Road Authorities (COLTO)

### 3. SCOPE OF WORK

The LDPWRI envisages implementing Household Routine Maintenance projects across 04 Local Municipalities (Bela - Bela, Lephalale, Modimolle/ Mookgophong, Mogalakwena and Thabazimbi) within the Waterberg District. One (01) social consultant is required per local Municipality.

### NOTES:

It is compulsory for bidders to bid for all Local Municipalities within the District as indicated on the Bill of Quantities (BOQ), failure to do so will render the bid nonresponsive.

The awarding of the Tender shall be limited to only one Local Municipality per bidder only. However, the Department reserves the right to award one bidder more than one Local Municipality on condition that there are no sufficient recommendable bidders within the District.

Each criterion carries the same weight / importance and will be evaluated individually by the Bid Evaluation Committee appointed on the project. An assessment of unacceptable risk on any single criterion will constitute unacceptable risk for the award as a whole, resulting in the tender to be disqualified and removed from further consideration.

In order for the evaluation reports to be prepared by the Bid Evaluation Committee, the Tenderer is obliged to provide comprehensive information. Failure to complete the said form will cause the tender to be declared non-responsive and removed from any further consideration. Information provided in the returnable documentation must be provided in sufficient detail to enable the evaluation panel to evaluate the risk criteria set out below.

The Employer reserves the right to request further clarification, elucidation, additional documentation / information, etc. as may be required to evaluate the tender. The afore-mentioned can also entail that the persons, named in the schedule and Data provided by the Service Provider, as indicated above, be invited to an interview.

The information must be provided by the Tenderer within the stipulated time as determined by the Bid Evaluation Committee, failing which the tender offer will *mutatis mutandis* be declared non-responsive.

### The risk criteria are as follows:

### Technical risks:

### Criterion 1: Experience on comparable projects

The tendering Service Provider's experience on comparable projects. The number of current and previous comparable projects performed by the Tenderer as per the evaluation report prepared by the Bid Evaluation Committee, based on its research and inspection of a representative sample of the Tenderer's previous work.

Aspects to be regarded as "comparable" includes (but may be extended according to circumstances): size of projects (measured against monetary value or other project quantifying parameters), nature of projects (engineering), locality/area of execution (site-specific influences, knowledge of local conditions, etc.), complexity of projects, projects for similar irrespective of end purpose created or in progress of being created and time scales of projects (normal, fast track, etc.) and stage of its/their development.

[An opinion will be formed by each of the members of an evaluation panel according to his/her assessment of the experience and performance of the tendering Service Provider from information submitted with the tender (in written-, report- and/or brochure format), and upon further investigations/reference checks that may be performed, for which purpose the tendering Service Provider must include names and contact particulars of present and previous Employers to whom services are/were rendered. The Employer retains the right to contact references not mentioned by the tendering Service Provider. Members of the evaluation panel will discuss their respective risk perceptions in order to reach consensus, failing which the specific risk will be put to the vote. No risk assessment will be performed for this criterion in the absence of relevant information with the tender and will therefore render the tender as unacceptable and will be excluded from further consideration.

### Commercial risks:

The financial viability assessment evaluates the risk over the life of the service contract period, as to whether the tenderer will be able to deliver the services which are specified in the contract and / or be able to fulfil assurances provided for in the contract in order to complete the project successfully.

Aspects to be considered include but not limited to, the respective rates tendered, financial capability and capacity whether the tenderer has or has access to sufficient financial resources to deliver the services described in the tender documentation (including fulfilling any guarantees claims), whether the tenderer is not subject to any current or impending legal action (either formal proceedings or notification of legal action) which could impact on the financial standing of the tenderer or the delivery of services. management accounts / financial report from auditors as proof of current liquidity, and company or any parent company or investor guarantee/s and financial statements.

[An opinion will be formed by each of the members of an evaluation panel according to his/her assessment of the financial viability of the amount tendered in order to render the service. Members of the evaluation panel will discuss their respective risk perceptions in order to reach consensus, failing which the specific risk will be put to the vote. No risk assessment will be performed for this criterion in the absence of relevant information/ curricula vitae with the tender and will therefore render the tender as unacceptable and will be excluded from further consideration.]

Note: Any tender not complying with all of the above-mentioned stipulations will be regarded as nonresponsive and will therefore not be considered for further evaluation.

### 8. STAGE 3: Preference Point System (80/20)

### 8.1. Calculation of points for price

### Step 1: Calculation of points for Price

The PPPFA prescribes that the lowest acceptable bid will score 80 points for price. Bidders that quoted higher prices will score lower points for price on a pro-rata basis. The formula to be used for calculating points scored for price is the following:

$$Ps = 80 \left( 1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration and Pmin = Price of lowest acceptable tender

Points scored must be rounded off to the nearest 2 decimal places

### Step 2: Calculation of points for Specific goals

Points shall be awarded to a bidder for attaining points for specific goals in accordance with the table below

The specific goals allocated points in terms of this tender	Number of points allocated (90/10 system) (To be completed by the organ of state)	Number of points allocated (80/20 system) (To be completed by the organ of state)	points claimed *	Completed 57/ (if terriess) is

### PRICING INSTRUCTIONS

1 For the purposes of this bill of quantities, the following words shall have the meanings hereby assigned to them:

Unit: The unit of measurement for each item of work as defined in the standard specifications or the project specifications.

Rate: The payment per unit of work for which the Bidder tenders to do the work.

Lump Sum: An amount tendered for an item, the extent of which is described in the bill of quantities, the specifications or elsewhere, but of which the quantity of work is not measured in units.

- 2 This bill of quantities forms part of the contract documents and must be read in conjunction with all the other documents comprising the contract documents.
- 3 The quantities set out in the bill of quantities are only approximate quantities. The quantities of work finally accepted and certified for payment, and not the quantities given in the bill of quantities, will be used to determine payments to the contractor.

The validity of the contract shall in no way be affected by differences between the quantities in the bill of quantities and the quantities finally certified for payment. Work is valued at the rates or lump sums tendered, subject only to the provisions of sub-clause M0208 (a) of the standard specifications.

- 4 Rates and lump sums shall include full compensation for overheads, profits, incidentals, tax (other than VAT), etc, and for the completed items of work as specified, all in accordance with sub-clause M0208 (b) of the standard specifications. Full compensation for completing and maintaining, during the defects liability period, all the work shown on the drawings and specified in the standard specifications and project specifications and for all the risks, obligations and responsibilities specified in the general conditions of contract, special conditions of contract, standard specifications and project specifications shall be considered as provided for collectively in the items of payment given in the bill of quantities, except in so far as the quantities given in the bill of quantities are only approximate.
- 5 The Bidder shall fill in a rate or a lump sum for each item where provision is made for it even where no quantities are given. Items against which no rate or lump sum has been entered in the tender will not be paid for when the work is executed, as payment for such work will be regarded as being covered by other rates or lump sums in the bill of quantities.

The Bidder shall fill in a rate against all items where the words "rate only" appear in the amount column. Although no work is foreseen under such item and no quantities are consequently given in the quantity column, the tendered rate shall apply should work under this item actually be required. Tenders should note the provisions of paragraph 12 of this preamble.

If the tender should group a number of items together and tender one lump sum for each group of items, this single tendered lump sum shall apply to that group of items and not to each individual item, or should he indicate that full compensation for any item has been included in the rate for another item, the rate for the item included in another item shall be deemed to be nil.

The tendered lump sums and rates shall be valid irrespective of any change in the quantities during the execution of the contract.

- 6 The works executed are measured for payment in accordance with the methods described in the contract documents under the various payment items, notwithstanding any custom to the contrary.
- 7 The amount of work or the quantities of material stated in the bill of quantities shall not be considered as restricting or extending the amount of work to be done or quantity of material to be supplied by the contractor.
- 8 The statement of quantities of material or the amount of work in the bill of quantities shall not be regarded as authorisation for the contractor to order material or to execute work. The

Tender

29

### APPOINTMENT OF PROFESSIONAL SOCIAL CONSULTANTS FOR ROAD MAINTENENCE PROJECTS IN WATERBERG DISTRICT FOR A PERIOD OF 36 MONTHS

contractor shall obtain the engineer's detailed instructions for all work before ordering any materials or executing work or making arrangements in this regard.

- 9 The short descriptions of the payment items in the bill of quantities are only given to identify the items and to provide specific details. Reference shall, inter alia, be made to the drawings, standard specifications, project specifications, general conditions of contract and special conditions of contract for more detailed information regarding the extent of work entailed under each item.
- 11 The provisions of clause 6.6 of the general conditions of contract shall apply to provisional sums and prime cost sums.
- 11 Where the Bidder elect to confirm the tender offer as tendered, correct the errors as follows: If bills of quantities or pricing schedules apply and there is an error in the line item total resulting from the product of the unit rate and the quantity, the line item total shall govern and the rate shall be corrected. Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as quoted shall govern, and the unit rate shall be corrected. Where there is an error in the total of the prices either as a result of the other corrections required by this checking process or in the Bidders addition of prices, the total of the prices shall govern and the Bidder will be asked to revise selected item prices (and their rates if bill of quantities apply) to achieve the tendered total of the prices.
- 12 A tender may be rejected if the unit rates or lump sums for some of the items in the bill of quantities are, in the opinion of the employer, unreasonable or out of proportion, and if the Bidder fails, within a period of seven (7) days of having been notified in writing by the employer to adjust the unit rates or lump sums for such items, to make such adjustments.
- 13 The units of measurement indicated in the bill of quantities are metric units.

The following abbreviations are used in the bill of quantities:

km = kilometre

No = number

PC sum = prime cost sum Prov sum = provisional sum

- 14 All rates and sums of money quoted in the bill of quantities shall be in rands and whole cents. Fractions of a cent shall be discarded
- 15 The item numbers appearing in the bill of quantities refer to the corresponding item numbers in the standard specifications. Item numbers prefixed by the letter M refer to payment items described under part M of the project specifications, those with B to payment items described under part B, and so on for further parts of the project specifications.
- 16. Labour intensive items are highlighted in the bills of quantities for the payment items relating to labour intensive works.
- 16.1 Those parts of the contract to be constructed using labour intensive methods have been marked in the bills of quantities with the letters LI against every item so designated. The works or parts of the works so designated are to be constructed using labour intensive methods only. The use of plant to provide such works, other than plant specifically provided for in the scope of work, is a variation to the contract. The letters marked with LI are **not necessarily an exhaustive list** of all items which must be done by hand, and this clause does not override any of the requirements in the generic labour intensive specification in the Scope of Works.
- 16.2 Payment for items which are designated to be constructed using labour intensively in the schedule of quantities will not be made unless they are constructed using labour intensive methods. Any unauthorised use of plant to carry out work which was to be done labour intensively will not be condone and any work so constructed will not be certified for payment. If a contractor, through innovation on other activities, achieved the Local labour content target, but he did not perform all LI-marked activities through labour, he will not be penalized. However, if a contractor did not achieve the Local labour content target and constructed a LI-marked activity through other means, he will not be paid for that activity. Any non-payment for such

works shall not relieve the Contractor in any way from his obligations either in contract or in delict.

17. All cost for formal training to the targeted workforce (amongst others: allowances, wages, administration, transport, etc) shall be deemed to be included in the rates for Labour Intensive items.

- 1.4 "Corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.
- 1.5 "Countervailing duties" are imposed in cases where an enterprise abroad is subsidised by its government and encouraged to market its products internationally.
- 1.6 "Country of origin" means the place where the goods were mined, grown or produced, or from which the services are supplied. Goods are produced when, through manufacturing, processing or substantial and major assembly of components, a commercially recognised new product results that is substantially different in basic characteristics or in purpose or utility from its components.
- 1.7 "Day" means calendar day.
- 1.8 **"Delivery**" means delivery in compliance of the conditions of the contract or order.
- 1.9 "**Delivery ex stock**" means immediate delivery directly from stock actually on hand.
- 1.10 "Delivery into consignees store or to his site" means delivered and unloaded in the specified store or depot or on the specified site in compliance with the conditions of the contract or order, the supplier bearing all risks and charges involved until the supplies are so delivered and a valid receipt is obtained.
- 1.11 "Dumping" occurs when a private enterprise abroad markets its goods on own initiative in the RSA at

- 8.3 If there are no inspection requirements indicated in the bidding documents and no mention is made in the contract, but during the contract period it is decided that inspections shall be carried out, the purchaser shall itself make necessary arrangements, including payment arrangements with the testing authority concerned.
- 8.4 If the inspections, tests and analyses referred to in clauses 8.2 and 8.3 show the supplies to be in accordance with the contract requirements, the costs of the inspections, tests and analyses shall be defrayed by the purchaser.
- 8.5 Where the supplies or services referred to in clauses 8.2 and 8.3 do not comply with the contract requirements, irrespective of whether such supplies or services are accepted or not, the cost in connection with these inspections, tests or analyses shall be defrayed by the supplier.
- 8.6 Supplies and services which are referred to in clauses8.2 and 8.3 and which do not comply with the contract requirements may be rejected.
- 8.7 Any contract supplies may on or after delivery be inspected, tested or analysed and may be rejected if found not to comply with the requirements of the contract. Such rejected supplies shall be held at the cost and risk of the supplier who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with supplies which do comply with the requirement of the contract. Failing such removal, the rejected supplies shall be returned at the supplier's cost and risk. Should the supplier fail to provide the substitute supplies forthwith, the purchaser may, without giving the supplier further opportunity to substitute the rejected supplies, purchase such supplies as may be necessary at the expense of the supplier.
- 8.8 The provisions of clauses 8.4 to 8.7 shall not prejudice the right of the purchaser to cancel the contract on

	account of a breach of the conditions thereof, or to act in
	terms of Clause 23 of GCC.
9. Packing	9.1 The supplier shall provide such packing of the goods as
	is required to prevent their damage or deterioration
	during transit to their final destination, as indicated in the
	contract. The packing shall be sufficient to withstand,
	without limitation, rough handling during transit and
	exposure to extreme temperatures, salt and precipitation
	during transit, and open storage. Packing, case size and
	weights shall take into consideration, where appropriate,
	the remoteness of the goods' final destination and the
	absence of heavy handling facilities at all points in transit.
	9.2 The packing, marking, and documentation within and
	outside the packages shall comply strictly with such
	special requirements as shall be expressly provided for in
,	the contract, including additional requirements, if any,
	specified in SCC, and in any subsequent instructions
	ordered by the purchaser.
10. Delivery and documents	10.1 Delivery of the goods shall be made by the supplier in
documents	accordance with the terms specified in the contract. The
	details of shipping and/or other documents to be furnished
	by the supplier are specified in SCC.
	10.2 Documents to be submitted by the supplier are specified
	in SCC.
11. Insurance	11.1 The goods supplied under the contract shall be fully
	insured in a freely convertible currency against loss or
	damage incidental to manufacture or acquisition,
	transportation, storage and delivery in the manner
40.7	specified in the SCC.
12. Transportation	12.1 Should a price other than an all-inclusive delivered price
42 lesident l	be required, this shall be specified in the SCC.
13. Incidental	10.1. The supplier may be required to provide any or all of the
services	following services, including additional services, if any,
	specified in SCC:

commissioning of the supplied goods;  (b) furnishing of tools required for assembly and/or maintenance of the supplied goods;  (c) furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied goods;  (d) performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and  (e) training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.  13.2 Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.  14.1 As specified in SCC, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts

	contract are new, unused, of the most recent or current
	models, and that they incorporate all recent improvements
	in design and materials unless provided otherwise in the
	contract. The supplier further warrants that all goods
	supplied under this contract shall have no defect, arising
	from design, materials, or workmanship (except when the
	design and/or material is required by the purchaser's
	specifications) or from any act or omission of the supplier,
	that may develop under normal use of the supplied
	goods in the conditions prevailing in the country of final
	destination.
	15.2 This warranty shall remain valid for twelve (12) months
	after the goods, or any portion thereof as the case may be,
	have been delivered to and accepted at the final
·	destination indicated in the contract, or for eighteen
	(18) months after the date of shipment from the port or place
	of loading in the source country, whichever period
	concludes earlier, unless specified otherwise in SCC.
	15.3 The purchaser shall promptly notify the supplier in
	writing of any claims arising under this warranty.
	15.4 Upon receipt of such notice, the supplier shall, within the
	period specified in SCC and with all reasonable speed.
	repair or replace the defective goods or parts thereof,
	without costs to the purchaser.
	15.5 If the supplier, having been notified, fails to remedy the
	defect(s) within the period specified in SCC, the
	purchaser may proceed to take such remedial action as
	may be necessary, at the supplier's risk and expense and
	without prejudice to any other rights which the purchaser
•	may have against the supplier under the contract.

16 Payment	16.1 The method and conditions of payment to be made to the
	supplier under this contract shall be specified in SCC.
	16.2 The supplier shall furnish the purchaser with an invoice
	accompanied by a copy of the delivery note and upon
	fulfilment of other obligations stipulated in the contract.
	16.3 Payments shall be made promptly by the purchaser, but
	in no case later than thirty (30) days after submission of an
	invoice or claim by the supplier.
	16.4 Payment will be made in Rand unless otherwise
	stipulated in SCC.
17 Prices	17.1 Prices charged by the supplier for goods delivered and
	services performed under the contract shall not vary from
