1.1.3 FOREWORD BY THE MEC

**Mr. E.S. Rachoene
MEMBER OF EXECUTIVE
COUNCIL**

The financial year 2023/24 was the fourth year of implementation of the Department's Strategic Plan for 2020–2025. In the quest of delivering on our mandate, we have immensely contributed towards a 'Better Africa and the World'. Limpopo Province is one of the strategic provinces that are connecting many countries in the SADC region. This reality compels the department and its implementing entity, Roads Agency Limpopo to ensure that there is proper roads infrastructure to enable economic growth and investment.

It is for this reason that Infrastructure investment remains our priority to stimulate the provincial growth whilst maximizing job creation. The Annual Report for 2023/24 provides an account of the activities and interventions implemented and resources deployed in order to meet not only the department's constitutional mandate, but also to promote the achievement of the outcomes of the department, the province and the country.

The achievements and challenges that prevented the department from achieving its targets are outlined for each of the four budget Programmes namely Administration, Infrastructure Operations, Expanded Public Works Programme and the Roads Infrastructure. The department is the implementing agent for provincial infrastructure, construction management and maintenance. The increasing backlog in maintenance remains a substantial challenge for the Department as the allocated budget is not adequate to support the comprehensive management of our infrastructure assets through their respective life cycles. The Department however remains committed to managing its Programmes as effectively as possible.

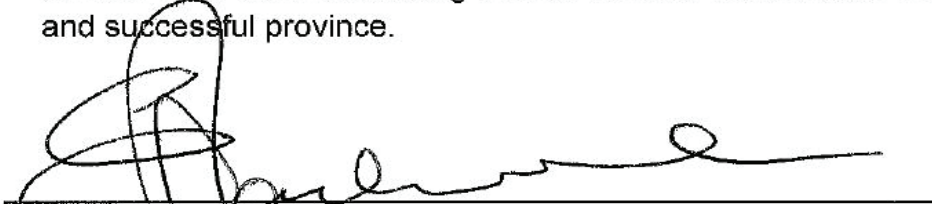

The Department of Public Works, Roads & Infrastructure continues to play a pivotal role in improving socio-economic conditions, ensuring economic transformation happens and more jobs are created in the Limpopo Province. In an endeavour to continue providing driveable unpaved roads in the province, the department has procured 25 new graders and 1 excavator to assist the 128 aging machinery. These machinery and plant equipment are important tools in the maintenance of gravel roads. The province has about 14 000 square kilometres of unpaved roads, the reality is that those unpaved gravel roads do provide and serve as access roads that connects communities to basic services and for transportation of goods and services. The network do provide access to economic areas such as farms, mines and shopping complexes.

During the year under review, we report on the following strategic achievements:

- The department collected R51m in revenue;
- 100% of eligible suppliers were paid within 30 days;

- 1 479 job opportunities were created in the implementation of Expanded Public Works Programme; and
- 3 429 work opportunities were created in the implementation of our Roads Infrastructure programme.

Lastly, I would like to thank our stakeholders, Acting Head of the Department, RAL, the staff and management of the Department of Public Works, Roads & Infrastructure for their hard work in ensuring that we achieve our mandate in the quest for a growing and successful province.

MR. E.S. RACHOENE
MEMBER OF EXECUTIVE COUNCIL
DEPARTMENT OF PUBLIC WORKS, ROADS AND INFRASTRUCTURE
24 July 2024

1.1.4 REPORT OF THE ACCOUNTING OFFICER

Mr Motlhanke Phukuntsi
ACTING HEAD OF DEPARTMENT

I am honoured to submit this 2023/24 Annual Report of the Limpopo Department of Public Works, Roads & Infrastructure to the people of Limpopo Province and all our stakeholders.

During the 2023/24 FY the department continued with efforts to enhance the provincial capacity and delivery mechanisms to plan, deliver, procure and manage infrastructure projects to ensure that the province maximise and utilise the limited resources to address the growing needs of society.

To this extent, the department reviewed and reprioritised the Development Bank of Southern Africa (DBSA) infrastructure support to align with this provincial key strategy. This initiative is one of the many initiatives we embarked on to build a Limpopo Department of Public Works, Roads & Infrastructure to effectively plan, deliver and manage movable assets in the province. Understandably, this is a huge responsibility that requires substantial resources and skills to coordinate and integrate all stakeholders, including all spheres of government, agencies, the private sector, local authorities and communities.

The department has embarked on a Turnaround Programme with the purpose of reversing the failure and improve performance and to position it to perform a strategic role in provincial infrastructure delivery and management. The Turnaround Programme includes amongst others the following outputs:

Programme Management,
Governance,
Transition Management;
Leadership Enhancements and Support;
Strategic Realignment;
Redefining the department's role; and
Organisation Change Management.

We have started to realise the gains and impact of our investments. The department was able to improve its overall performance as far as the 2023/24 Annual Performance Plan is concerned. The department achieved 89,2% of its planned targets for the year, an increase

from 71% of 2022/23 financial year. In addition, the expenditure of provincial infrastructure budget is on a positive trajectory, having spent 97% of the allocated budget for 23/24 financial year. These are some of the gains that we will continue to build from as we strive towards building a capable state.

During the year under review, the department managed to fill all critical senior management and built environment professionals positions such as that of the Chief Director Roads Infrastructure, Chief Director Health Infrastructure and Chief Director Expanded Public Works amongst others. This is a significant step and ensure stability at senior management level of the institution. We are still in the process to fill the remaining critical posts for built-environment professionals and support.

Skills development remains a catalyst for poverty through opportunities like the construction and maintenance of buildings and facilities and developing skills in the built-environment sector. We achieved this through including unemployed young people in construction-related trades as part of the National Youth Service Programme (NYS) and providing artisanal training to apprentices in trades like electrical wiring, welding, fitter and diesel and mechanic. Our Apprenticeship Programme took off in the form of incubation theoretical and practical training to trainees over three years. The department is in the process of optimising the candidacy development programme to improve efficiency in order to increase the pool of professionals in the built-environment. We are in the process of forming strategic partnerships with key stakeholders such as built-environment council associations and others.

We are continuing to improve our systems and processes, including our Supply Chain Management (SCM). A functionally effective SCM is of course, central to ensuring good governance and socio-economic transformation, and is best measured through the attainment of a clean audit. To achieve our clean audit status, we will require individual and collective effort, and processes are already in place to ensure that we turn the corner.

As the implementation agency of choice, the department continued with the implementation of multi-year infrastructure projects to deliver Education, Health, Sports, Arts and Culture, Transport and Community Safety and COGHSTA infrastructure projects. Through leaps and bounds, we will continue to strive to enhance our capacity to improve on overall project and infrastructure management and delivery in the province. As a coordinating department in

the province 510 166 work opportunities were created in the implementation of Expanded Public Works Programme against the target of 475 358. Women, youth and people living with disabilities benefitted out of this initiative. It is worth mentioning that the department continued to pay 100% of its eligible suppliers consistently for the past three years.

The following are some of the highlights of the year under review:

- 51m revenue collected against the annual target of 39m,
- 11 properties disposed of against the annual target of 10,
- 50 immovable assets verified against the annual of 50.
- 1479 work opportunities created against the annual target of 1 461,
- 50 356 kms of gravel roads bladed against the annual 50 000.
- 132.19 km of gravel roads re-gravelled against the annual 110.
- 603 057 m² of blacktop patch against the annual target of 552 623 m²

The following is the summary of the Departmental Annual Performance for 2023/24 financial year per Programme and per Chief Directorate:

The department made an application for the approval of the 2023/24 tariffs to Provincial Treasury by the end of September 2022. The tariffs were approved and implemented from 01 April 2023. The department managed to exceed its 2023/24 own revenue budget by R5.767 million as against the adjusted budget of R45.653 million. The department sold obsolete and redundant capital assets to reduce maintenance costs after it acquired new ones to the value of R103 million during 2023/24 financial year.

The department managed to spend 97% of its adjusted budget in this financial year. The following are the main reasons for under spending during the 2023/24 financial year:

- Delays in filling critical vacant posts as per the approved recruitment plan and high terminations during the year. The department will use a differentiated approach to fill vacancies timeously to prevent under spending on compensation of employees.
- Delays in procurement of goods and services also affected spending on goods and services item and payment for capital assets. The department will closely monitor the implementation of the procurement plan to prevent under spending of the budget

• Virements/roll overs

The department has received approval for the final virements application from the Provincial Treasury to prevent the unauthorised expenditure incurred for 2023/24 financial year in Programme 03, Expanded Public Works Programme (EPWP) and statutory appropriation.

The Department made an application to roll over on the unspent conditional grants and equitable share budget to the Provincial Treasury to the value of R35.093 million and R36.478 million respectively.

- **Bad debts written off**

The Department wrote off debts to the value of **R63 thousands** due to savings realised during the 2023/24 financial year and in compliance to prescripts.

- **Unauthorised Expenditure**

The Department did not incur any unauthorised expenditure during the 2023/24 financial year.

- **Fruitless and Wasteful Expenditure**

The Department incurred fruitless and wasteful expenditure of R28 million during the 2023/24 financial year as disclosed in note 31 of the annual financial statements. The investigation has been concluded, recommended by the Financial Misconduct Board (FMB) approved by the Accounting Officer and awaiting implementation of the recommendations by the department.

- **Irregular Expenditure**

The Department incurred irregular expenditure of R414 million during the 2023/24 financial year as disclosed in note 31 of the annual financial statements. The irregular expenditure incurred is due to multi-year contracts awards in the previous and current financial year.

Future plans to prevent and address a recurrence of unwanted expenditure

- **Unauthorised Expenditure**

The Department has enhanced the functionality and effectiveness of the Budget Committee during the 2023/24 financial year, hence no material under spending or no unauthorised (overspending) expenditure incurred on the allocated budget.

- **Fruitless and Wasteful Expenditure**

The department is allocating adequate budget for municipal and ESKOM services items such as water, electricity and licensing to prevent delays in payments processing. The department will continue to interact with municipalities and ESKOM on the charging of interest timeously for reversal thereof.

The department has implemented the electronic invoice tracking system from March 2024 to ensure that invoices are paid on time.

- **Irregular Expenditure**

- The department has established an Internal Control Unit from May 2022 to do amongst others, pre and post audit for areas that are prone to resulting in irregular expenditure, such as SCM and recruitment. The post audit will timeously detect irregular expenditure for management to correct and disclose in the annual financial statements.
- The Internal Control and Compliance unit undertakes pre-audits for all advertised bids prior the approval by the Head of department from July 2023
- The department has reviewed and implemented SCM checklist for procurement committees to avoid/prevent non-compliance matters.
- The department has trained SCM officials and other officials who serve in procurement committees during 2023/24 through the Provincial Treasury in an attempt to prevent the recurrence of the irregular expenditure. The training will be continuous to ensure improved knowledge and compliance to SCM prescripts on an annual basis and as and when required.
- The department has reviewed the SCM Policy during 2023/24 financial year as per the AGSA Action Plan and internal audit recommendations to prevent incurring irregular expenditure.
- The department also approved and is implementing the Standard Operating Procedure (SOP) on SCM during the 2023/24 financial year.
- The Head of Department has approved the Procurement Management Turnaround Strategy and it is under implementation.
- The department has advertised the post of Director Procurement Management and plans to fill the post during 2024/25 financial year.

- Other vacant procurement management posts at head office will be filled during the 2024/25 financial year.

- **Challenges experienced in SCM and how they were resolved.**

The high vacancy rate at junior, middle and senior management level affected the monitoring of compliance to SCM prescripts during the year under review. The department failed to award all bids that were on the 2023/24 procurement plan due to capacity challenges within the unit. The Department approved the Procurement Management Turnaround strategy, implemented it and monitored it on a monthly basis.

All vacancies to be filled during the 2024/25 financial year.

- **Variation orders approved during the 2023/24 financial year.**

The department approved all variation orders that were recommended by the Infrastructure Bid Adjudication Committee and reported those that exceeded 20% to the Provincial Treasury as per prescripts.

- **Deviations reported during the 2023/24 financial year**

All deviations were reported monthly to Provincial Treasury during the 2023/24 financial year.

- **Extensions of contracts**

The department extended the security services contract that was due to expire at the end of January 2024 on a month to month basis until the new contract is awarded.

- **Bids Awarded during 2023/24 financial year**

The following bids were awarded during the 2023/24 financial year by the Department:

1.1.7. LEGISLATIVE AND OTHER MANDATES

- **Constitutional Mandate**

In terms of sub-section 125 (1) of the Constitution of RSA, “the executive authority of a Province is vested in the Premier of that Province.” Sub-section (2) also provides that “The Premier exercises the Executive Authority, together with other Members of the Executive Council, by: -

- Implementing Provincial Legislation;
- Implementing all National Legislation within the functional areas listed in Schedule 4 or 5 except where the Constitution or an Act of Parliament provides otherwise;
- Administering in the province, national legislation outside the functional areas listed in Schedule 4 or 5, the administration of which has been assigned to the provincial executive in terms of an Act of Parliament;
- Developing and implementing provincial policy;
- Co-ordinating the functions of the provincial administration and its departments;
- Preparing and initiating provincial legislation; and
- Performing any other function assigned to the provincial executive in terms of the Constitution or an Act of Parliament.”

In terms of Schedule 4 of the RSA Constitution, Public Works, Roads and Infrastructure is a functional area of concurrent National and Provincial legislative competence “only in respect of the needs of provincial government departments in the discharge of their responsibilities to administer functions specifically assigned to them in terms of the Constitution or any other law.”

In terms of his Constitutional prerogative, the Honourable Premier or Minister establishes the Department of Public Works, Roads and Infrastructure to provide and manage Provincial land and buildings. In addition, to contribute to the provincial goal of job creation and poverty alleviation through the Expanded Public Works Programme “only in respect of the needs of provincial government institutions in the discharge of their responsibilities to administer functions specifically assigned to them in terms of the Constitution.”

1.1.8. Legislative Mandates

In terms of the relevant provisions of the RSA Constitution, (Act 108 of 1996) and the Public Service Act, (Proclamation 103 of 1994), a functional mandate was assigned to

the Department in respect to Public Works. The Provisions of the Northern Province Land Administration Act (Act 6 of 1999) confirms the legislative mandate of the department in matters pertaining to the acquisition and disposal of provincial land and building.

In terms of this legislative mandate, it is abundantly clear that the Department of Public Works, Roads, and Infrastructure is assigned the role of custodian and manager of all provincial government land and buildings for which other legislation does not make other departments or institutions responsible. This mandate includes the determination of accommodation requirements; rendering expert built environment services to client departments as well as the acquisition, management, maintenance and disposal of such provincial government land and buildings.

LIMPOPO

PROVINCIAL GOVERNMENT
REPUBLIC OF SOUTH AFRICA

DEPARTMENT OF
PUBLIC WORKS, ROADS & INFRASTRUCTURE

Part - C

Governance

1. INTRODUCTION

The department has established the following governance structures to ensure effective, efficient and economic use of state resources: Executive Management Committee which is responsible for making strategic decisions and monitors the overall performance of the department. The Cluster 2 Audit Committee has a responsibility to provide an oversight on both financial and non-financial performance of the department as well as ensuring compliance with applicable rules and regulations.

The Shared Internal Audit Services (SAIS) is responsible for the evaluation of the adequacy and effectiveness of internal controls and compliance with applicable rules and regulations, and assessment of key risk areas and they also provide advisory services to the Accounting Officer and the Executive Management.

The department has also established the Risk Management Committee (RMC) to monitor and evaluate the effectiveness of the risk management processes and also to review control measures to mitigate identified significant risks. The Committee is comprised of the executive management representing various programmes and is chaired by an Independent Chairperson. The committee meets on quarterly basis to review risk governance reports and make recommendations to management.

The Departmental Audit Steering Committee has been established to oversee the implementation of the audit programs for both the Shared Internal Audit Services and Office of the Auditor-General to ensure the smooth running of the auditing process and to ensure the speedy resolution of audit findings and implementation of audit recommendations. The committee meets on monthly basis to address audit related issues.

2. RISK MANAGEMENT

The department is guided, in its risk management practices, by the Public Finance Management Act, National Treasury Risk Management Framework, the King IV report on Corporate Governance and the Provincial Risk Management Framework. The Department is in the process of reviewing the risk management policy approved by the Executing Authority and the risk management strategy approved by the Accounting Officer (AO).

During the 2023/24 financial year, the department conducted both strategic and operational risk assessments to identify significant risks which may affect the operations of the department and hinders the achievement of its strategic objectives. The risk mitigation action plans were implemented to reduce the impact of risks and the plan was monitored on a continuous basis and quarterly progress reports were submitted to the Cluster 2 Audit Committee for oversight and evaluation of the effectiveness of the risk management processes.

The department has captured both the provincial and strategic risk profiles in the BARNOWL Enterprise Risk Management System (ERM). The utilization of the ERM system has improved significantly and reports generated by the system itself.

The department has implemented risk management awareness programme and conducted training and education on risk management related activities to all staff members both at Head Office and District Offices for the continuous improvement of its performance.

The department has established the Risk Management Committee (RMC) which is comprised of members of the executive management, internal auditors and transversal risk management officials are ex officio members. The RMC is chaired by an independent chairperson and the committee held four meetings during the 2023/24 financial year.

3. FRAUD AND CORRUPTION

The department continuously implements the provisions of the Public Service Anti-Corruption Strategy and the Provincial Anti-Corruption Strategy as guidelines to address issues relating to fraud and corruption.

The department has implemented the National Anti-Corruption Strategy 2020-2030 approved by the cabinet on the 18 November 2020. The Department has an approved anti-fraud and corruption policy and the whistle blowing policy. The department continue to implement Fraud Prevention Implementation plan.

Furthermore, the department is continuously implementing an approved Ethics Management Policy and the Ethics Management Committee has been established to oversee the implementation of ethics management processes and ensure compliance with a regime of directives issued by the DPSA.

The department has established an Integrity Management Unit to deal with fraud risk management. The National Hotline (0800 701 701) has been popularized amongst all staff members and reported cases are investigated and finalized within the prescribed timeframes as stipulated in our service delivery standards.

Fraud and corruption related cases are reported through the National Anti-Corruption Hotline and through the Departmental Risk Management Unit as stipulated in our Whistleblowing Policy. Cases are registered in the case register and assigned to investigating officers. Criminal cases are reported to law enforcement agencies and misconduct cases are dealt with through the internal disciplinary processes.

4. MINIMISING CONFLICT OF INTEREST

The Public Service Act No.103 of 1994 and Regulations as amended requires Senior Management Service (SMS) and Middle Management Service (MMS) members to complete Financial Disclosure forms on an annual basis. In terms of the New Public Service Regulations, public servants are forbidden to conduct business with organs of the State.

The Department continuously implemented the guidelines and directives on Remunerative work outside public service issued by DPSA. The purpose of this policy is to encourage employees to seek approval from the Executive Authority to conduct remunerative work and for the declaration of financial interest as provided for in the Public Service Code of Conduct. The department issued circulars annually reminding employees to seek approval to conduct remunerative work outside the public service.

Members of the Bid Specification, Bid Evaluation and Bid Adjudication Committees have signed the Code of Conduct and are required to declare their financial interest during each meeting of the Departmental Evaluation and Bid Adjudication committees. Staff members as well as officials rendering administrative support such as recruitment are also required to complete declaration forms. SMS members and officials in sensitive areas are subjected to the vetting process conducted by State Security Agency (SSA).

5. CODE OF CONDUCT

The primary purpose of the Code of Conduct is to promote ethical behavior as exemplary conduct. In order to promote a high standard of professional ethics in the workplace, public servants are encouraged to think and behave ethically.

The Public Service Regulation issued in 2016 addresses issues pertaining to relationships with Legislature, the general public, performance of duties, personal conduct and personal interests. The department has distributed the Code of Conduct to all staff members.

The department has appointed ethics officers to advise on ethics matters and monitor the implementation of ethics management policy and strategy in line with Public Service Regulations of 2016.

Any reported transgressions of the Code of Conduct are dealt with in terms of the Public Service Disciplinary Code and Procedures.

6. HEALTH SAFETY AND ENVIRONMENTAL ISSUES

The department of Public Works, Roads and Infrastructure in Limpopo province is committed to provide and Implement Occupational Safety, Health and Environment and Quality measures to ensure health and safe work environment for employees and clients. The department is responsible and committed to prevent Occupational injuries as well as Acquired Occupational Diseases in the workplace and continues to implements health and safety standards and operational procedures to minimize risks and hazards in compliance with the relevant SHERQ legislations, regulations, codes, standards and practices.

The department conducted the following activities in line with SHERQ related legislations:-

- **26** OHS workplace audits/inspections.
- Appointment of OHS Act Section 16.2
- **18** OHS/COID Supervisory Training
- **17** SHERQ Management Committee meetings
- **07** Incident/accident investigations.
- **21** OHS/COID, PPEs emergency evacuation awareness sessions.
- **356** IOD files audited.
- Facilitated training of **69** SHE Reps, **124** Fire Marshals and **70** First Aiders

The department continues to report injury on duty cases to the Department of Employment and Labour.

9. PRIOR MODIFICATIONS TO AUDIT REPORTS

The Accounting Officer developed the 2022/23 AGSA audit action plan after the audit of 2022/23 financial year. The established Internal Audit Steering Committee monitored the implementation of the plan during the 2023/24 financial year. The Department managed to resolve up to 90% of the 2022/23 findings. The Department received a qualified audit opinion during the 2022/23 financial year due to misstatements on accrued departmental revenue and irregular expenditure.

Nature of qualification, disclaimer, adverse opinion and matters of non-compliance	Financial year in which it first arose	Progress made in clearing / resolving the matter
Accrued Departmental revenue	2022/23	The Department implemented a plan to resolve the challenge
Irregular expenditure	2022/23	The assessment and determination were concluded during the 2023/24 financial year. Investigation is still underway and recommendations to be implemented during 2024/25 financial year

10. INTERNAL CONTROL UNIT

Internal Control Unit is functional and DPWRI received a qualified opinion with findings for the financial year 2023/24. The qualified audit opinion had Emphasis on matters and other significant audit findings are being addressed in the audit action plan designed to prevent recurrence of similar audit findings.

The ICU plan is to manage and facilitate the provision of internal controls and compliance by providing the department with the overall management and administrative, strategic, financial and corporate support services in order to ensure that it delivers on its mandate in

DPWRI Coordination of Internal Audit Findings (ASC).

Internal Control and Compliance sub-directorate coordinate the departmental internal audit findings to ensure that management implement the audit recommendations.

During the financial year 2023/24 not all the unsatisfactory findings were resolved. The department managed to resolve 101 (87%) findings from 116 findings and 15 (13%) is still in progress as at 31st March 2024.

Departmental Audit Steering Committee meetings

Internal Control and Compliance sub-directorate coordinates the departmental audit steering committee meetings. The committee members were appointed in writing, terms of reference for the committee were approved. It is constituted as follows: Accounting Officer, Chief Financial Officer and Directors, Chief Director EPWP and Directors, Chief Director Property & Facilities and Directors, Chief Director Corporate Services and Directors, Chief Director Education Infrastructure and Directors, Chief Director Roads Infrastructure and Directors, and standing invitees from Provincial Treasury. Chairpersonship responsibilities of the Office's Audit Steering Committee is allocated to the Accounting Officer. There were twelve Audit Steering Committee meetings held to discuss the implementation of the internal audit recommendations, SCOPA resolutions, AG action plan, progress of the regularity audit which is currently underway, and the work performed by the Internal Control unit during the year.

Financial Misconduct Board appointment

A Financial Misconduct Board (FMB) is a Committee established to give effect to the provisions of Section 38 (1)(h) and 51(e) of the Public Financial Management Act 1999, as amended by Act 29 of 1999 (Act no.1 of 1999), and paragraphs 4 and 33 of the Treasury Regulations (TR)

DPWRI has appointed the following board members: Ms Dikotla MR (Chairperson), Mr Letshedi SD (Deputy Chairperson), Mr Nwedamutswu R (Member), Ms Moloisi NA (Member), Ms Mhlabane MOC(Ex-Officio Member), Mr Kutama MD (Member) and Mr Nyathela LG (Member) with effect from 01 June 2022 to 30 June 2025. The FMB has conducted three (3) meetings during the financial year 2023/24.

11. INTERNAL AUDIT AND AUDIT COMMITTEES

Key activities and objectives of the internal audit

The purpose of the Shared Internal Audit Services (SIAS) is to help Provincial Departments accomplish their strategic outcomes and objectives through performing systematic and disciplined assurance and consulting services by evaluating and improving the adequacy and effectiveness of the organisation's a) Risk Management, b) Internal Control/Compliance and c) Organisational Governance Processes.

SIAS utilises either Assurance or Consulting skills and techniques when conducting internal audit services. The primary objective always been to improve organisational governance, risk management, internal control and compliance processes. Essentially, the service offering of Shared Internal Audit Services (SIAS) may be divided into following three broad yet overlapping categories, namely:

- Compliance Audits – which will focus mainly on Programme 1 (Administration) and the implementation of Combined Assurance.
- Performance Audits – focuses on Core Function Programmes.
- Specialised Audits –services currently offered are related to Information Systems Audits and Fraud Risk Audits.

Scope of Work of the Internal Audit Function

The scope of work of the Internal Audit function entails providing assurance and consulting services in respect of Risk Management, Internal Control/Compliance and Governance processes. Furthermore, the scope of work of the Internal Audit Function is to determine whether the institution's network of risk management, internal control/compliance and governance processes as designed by management, is adequate and operates effectively.

Assurance Services

In addition to Combined Assurance Services, Assurance Services involve an objective examination of evidence for the purpose of providing an independent assessment on Internal Control, Risk Management and Governance Processes for the organization. Examples may include financial, performance, compliance, system security, and due diligence engagement.

Consulting Services are client-related activities and of an advisory nature and of which the scope is to be agreed with the client department. Consulting Services are intended to add value and improve an organization's Risk Management, Internal Control and Governance Processes.

12. AUDIT COMMITTEE REPORT

We are pleased to present our report for the financial year ended 31 March 2024.

Audit Committee Responsibility.

The Audit Committee reports that it has complied with its responsibilities arising from Section 38 (1) (a) (ii) of the Public Finance Management Act and Treasury Regulation 3.1.13. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein, except that we have not reviewed changes in accounting policies and practices.

Key Activities

The Audit Committee (AC) activities are outlined in the approved AC Charter which requires that an Annual Schedule must be finalised and approved as a guideline for the AC activities of that particular financial year. The AC has satisfactorily performed its mandate as enshrined in Sections 76 (4) (d) and 77 of the Public Finance Management Act (Act No. 1 of 1999) read in conjunction with Treasury Regulations 3.1 which states that AC must, amongst others, review the following:

- i. The effectiveness of the internal control systems;
- ii. The effectiveness of the internal audit function;
- iii. The risk areas of the institution's operations to be covered in the scope of internal and external audits;
- iv. The adequacy, reliability and accuracy of the financial information provided to management and other users of such information;
- v. Any accounting and auditing concerns identified as a result of internal and external audits;
- vi. The institution's compliance with legal and regulatory provisions; and
- vii. The activities of the internal audit function, including its annual work programme, coordination with the external auditors, the reports of significant investigations and the responses of management to specific recommendations.

Virtual Meetings (Post Covid-19)

COVID-19 posed a serious threat to humanity, however the work of the AC has partly benefitted from the proclamations made by the state that most of the meetings must be held virtually. The Provincial Accountant General's (PAG's) office has realised some savings within the budget of the AC. The savings were realised mainly from accommodation and travelling by the AC members because meetings were held virtually. Given the spirit of good governance, the impact of COVID-19 on the AC is felt on the sense that virtual meetings are not equipped with necessary tools to monitor efficient and effective participation of all the AC stakeholders. This becomes even difficult when one has to evaluate the work of the AC through National Treasury 360 Degree evaluation tool. However, the PAG's office has been active in ensuring that the AC remains a value adding tool as a critical oversight and governance structure.

There has been immense improvement in terms of connectivity as there were little interruptions resulting from network challenges as compared to the previous financial year. However, Load shedding remains a serious challenge as it briefly affects the network resulting in poor connectivity for a time being. In addition, the new cell phone contract came with serious improvements in terms of data allocation and connectivity to Microsoft Teams which remains free thus not affecting allocated data to officials rendering support to the work of AC.

Audit Committee Meetings

During the financial year 2023/2024, the AC met five (5) times to perform its roles and responsibilities as stipulated in the AC Charter. All the AC meetings have taken place as planned through 2023/2024 AC Annual Schedule. As resolved during 2023 AC Annual Strategic Planning Workshop, briefing sessions between Members of Executive Council (MECs) and Cluster Chairpersons were held from 24 October 2023 to 14 November 2023.

The briefing sessions were held virtually and afforded all the AC Chairpersons a slot with each MEC of the department they serve to discuss all the pertinent issues affecting the department.

First Quarter Cluster AC Meetings for August 2023 were held physically which were

followed by the CAC Meeting held 19 September 2023. Given the governance role of the ACs, it is pertinent that some of the AC meetings are held physically to interact directly with the management in order that all the AC resolutions are timely implemented. The last CAC Meeting of the current reporting period was also held physically to deal with myriad of issues including finalisation and adoption of the Combined Assurance Framework.

2024 Audit Committee Annual Strategic Planning Workshop

The AC annual strategic planning workshop for 2024/25 financial year was held virtually to enable all the stakeholders to connect and participate in the session. This was due to the fact that Head of Department's (HODs) were required to connect virtually to deal with issues such as Combined Assurance, ten (10) point implementation plan to move Department of Education, Public Works and Health out of qualified audit opinions to an improved audit outcomes etc. The strategic plan was held on 08 – 09 February 2024. Office of the Premier also made three (3) pertinent presentations on Limpopo's five (5) year performance review, Limpopo Collaborative Support Framework and Consequence Management Framework. The presentations were welcomed by ACs siting that Consequence Management Framework was long overdue and it will help the Province in dealing with stagnant issues in particular around irregular, fruitless and wasteful expenditures were consequence management is due against implicated officials.

The two (2) day strategic planning workshop has resulted in the AC members taking a total of thirty-two (32) resolutions to be implemented by affected stakeholders. Since the PAG has insisted on all the Stakeholders proving feedback on each resolution they are affected and no resolution register should be submitted without response, the Province has realized improvement in implementation of AC resolutions. All the protocol documents such as the AC Charter, Internal Audit Charter, and Reporting Frameworks were reviewed and adopted during first day of the workshop.

CAC Chairperson Meetings

During the current financial year, the CAC Chairperson managed to attend two (2) EXCO meetings to report on overall AC activities covering the work of all the Departments. EXCO meetings are mainly based on invite by EXCO Secretariat depending on the agenda of the day. However, PAG's office continuously advises EXCO Secretariat on the

importance of inviting CAC Chairperson to EXCO quarterly meetings in order to resent CAC overall quarterly reports. Unfortunately, the CAC Chairperson was not invited to attend any of the HOD Forums held during the current reporting period. Invitations to these structures (EXCO and HOD Forums) are welcomed and strategic in nature as they provide an opportunity for the CAC Chairperson to interact with Executive Authorities and Accounting Officers of all the Departments to highlight areas requiring improvement.

360 Degree Audit Committee Evaluation Feedback

National Treasury 360 Degree Evaluation tool was used to evaluate the work and performance of the AC. The final evaluation yielded an average score of 4.34 (from rating of 1 – 5) when combining the average scores of all the AC Stakeholders. This represented a slight regression from the previous evaluation period which yielded an average score of 4.72. The AC stakeholders who participated in the performance evaluation of the AC included Provincial Internal Audit, External AC Members and Management (Accounting Officers, Chief Risk Officers, Chief Financial Officers, Head of Internal Controls and GITO). Auditor General South Africa as an AC stakeholder could not participate in the performance review of the AC, mentioning that they do their own evaluation in the management report of each Department to protect and maintain their independence.

In comparison to the average scores of the three (3) stakeholders (AC; SIAS; and Management), it must be noted that Management recorded highest average score of 4.55. The lowest score was recorded by Shared Internal Audit Services at an average score of 3.95. The following were critical issues that Departments felt were not robustly engaged to their satisfaction by the AC members as follows:

- 1.1.1. Understanding of Departmental Environment
- 1.1.2. Oversight of Internal Audit and External Audit matters by AC Members
- 1.1.3. Concerns around reviews of both the findings and recommendations by internal and external auditors to ensure that recommendations are implemented.
- 1.1.4. Concerns around reviewing the appropriateness of the external audit fee.
- 1.1.5. Concerns around review of a whistleblower hotline and reviewing the log of incoming calls.
- 1.1.6. Understanding of Business & Risks of the Departments

It must be noted that these issues are repeating from the previous evaluation report thus AC must take these issues seriously and address them promptly.

Audit Committee Membership

Current AC Membership was appointed with effect from 01 January 2023 and will expire on 31 December 2025. A total of 17 AC members were appointed during 2022 AC membership recruitment process. There is no resignation or premature termination of any

AC Member's contract during the current period. Total number of female AC members are seven (7) while a total number of male AC members are ten (10) represented as: 58.8% males and 41.2% females. This is a decline in the appointment of female candidates as during the previous AC composition the number stood at eight (8) and it has currently decreased to seven (7). There is a strong need to improve female recruitment into the Limpopo AC membership as 41% is very low.

Objectives Of The Audit Committee

The Strategic Objectives of the AC as stipulated in its approved written Terms of Reference (AC Charter) are to ensure:

- a. the availability of a well-resourced, functional and sustained internal audit function;
- b. sound relationship with all assurance providers, oversight structures and other stakeholders;
- c. effective and efficient Internal and External Audit processes;
- d. promotion of sound functional interaction between the internal audit and other assurance providers;
- e. that there is adequate and effective corporate governance, encompassing fraud and risk management, information technology, internal control, financial management and reporting systems;
- f. Accounting Officers are fully supported in fulfilling their responsibilities in terms of the PFMA;
- g. accountability in terms of financial management and performance information for effective service delivery; and
- h. Compliance with relevant laws and regulations.

The Effectiveness of Internal Control

- Based on the results of the formal documented review of the design, implementation and effectiveness of the department's system of internal controls conducted by the internal audit and AGSA during the financial year ended 31 March 2024, and in

addition, considering information and explanations given by management plus discussions held with the external auditor on the results of their audit, the Audit Committee concluded that that current internal control systems is fully effective as no significant deficiencies were reported by both the AGSA and Shared Internal Audit Services.

Risk Management

- The Audit committee reviewed the department's policies on risk management and strategy (including IT Governance) and monitored the implementation of risk management policy and strategy and concluded that there is a notable room for improvement in so far as department's risk management maturity level in capacitation of the risk management unit and funding of the risk management activities. The department's risk maturity level is not at the desired level and new measures should be put in place to get to a level where risk management is embedded in the culture of the department with a proactive approach to risk management in all aspects of the business.

In-Year Management and Monthly/Quarterly Report

- Based on the quarterly review of in-year monitoring systems and reports, the Audit Committee is satisfied with the quality, accuracy, uselessness, reliability, appropriateness, and adequacy of the department in-year reporting systems. The year-end reporting and review of both the annual financial statements and annual performance report should significantly improve to avoid adjustments after submission to the AGSA.

Internal Audit

The Audit committee:

- Reviewed and approved the annual Internal Audit plans and evaluated the independence, effectiveness and performance of the internal audit function;
- Considered the reports of the Internal Auditors on the department's systems of internal control; and
- Reviewed issues raised by internal audit and the adequacy of corrective action taken by management in response thereto.

Combined assurance

- The Audit committee reviewed the plans and reports of the external and internal auditors and other assurance providers including management and concluded that the internal audit unit should finalise the fully implementation of Combined assurance framework.

Compliance with the relevant laws and regulations

- The Audit Committee considered reports provided by management, internal assurance providers and the independent auditors regarding compliance with legal and regulatory requirements and concluded that the department did not fully comply with the enabling laws and regulations as well as its departmental policies and standard operating procedures, especially in the area of quality of annual financial statement, strategic planning and performance management, revenue management, asset management, consequence management, and procurement and contract management (including expenditure management).

Evaluation of Annual Financial Statements

- Following the review by the Audit Committee of the annual financial statements for the year ended 31 March 2024 before and after the audit, the committee is of the view that the annual financial statements, except for the effects and possible effects of the basis for qualified opinion (accrued department revenue and irregular expenditure) fairly present, in all material respect, the financial position of the department for the year under review and can be incorporated into the annual report.

Evaluation of Annual Performance Report

- Following the review by the Audit Committee of the annual performance report for the year ended 31 March 2024 before and after the audit, the committee is of the view that, annual performance report can be incorporated into the annual report.

Consideration of the Final Audit report

- The Audit Committee considered final audit report and concurs with the AGSA's qualified audit opinion. Furthermore, the Audit Committee is concerned of the regression from unqualified with finding to qualified opinion. The department should accelerate efforts to satisfactorily resolve the internal control weaknesses that led to

the identified deficiencies, non-compliance and material misstatements.

REPORT OF THE AUDIT COMMITTEE ON

We are pleased to present our report for the financial year ended 31 March 2024.

Audit Committee Structure

Limpopo Provincial Government has an Audit Committee which is two tiered consisting of 4 Cluster Audit Committees, dealing with specific departments, and a shared Central Audit Committee.

Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 38 (1) (a) (ii) of the Public Finance Management Act and Treasury Regulation 3.1.13. The Audit Committee also reports that it has adopted appropriate formal terms of reference as its Audit Committee Charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein and the related code of conduct, policies and practices.

Stakeholder Engagement/s

The Committee has been able to engage with the following stakeholders:

- Limpopo Provincial Treasury senior management
- Limpopo Provincial Internal Auditors (Shared Internal Audit Services)
- Limpopo Provincial Auditor General (AGSA)
- Limpopo Provincial Treasury and Office of the Premier transversal units

Audit Committee Skills Development

A strategic and induction session was held during the last quarter of the financial year to assist the Audit Committee members better understand their challenging roles and the direction of the province in general.

The Effectiveness of Internal Control

Based on the results of the formal documented review of the design, implementation and effectiveness of the department's system of internal controls conducted by the Internal Audit and AGSA during the financial year ended 31 March 2024, and in addition,

considering information and explanations given by management plus discussions held with the external auditor on the results of their audit, the Audit Committee concluded that that current internal control systems is not fully effective as significant deficiencies were reported by both the AGSA and Shared Internal Audit Services.

Risk Management

The Audit Committee reviewed the department's policies on risk management and strategy (including IT Governance) and monitored the implementation of risk management policy and strategy. The Committee concluded that there is a notable room for improvement in so far as department's risk management maturity level, in capacitation of the risk management unit and funding of the risk management activities. The department's risk maturity level is not at the desired level and new measures should be put in place to get to a level where risk management is embedded in the culture of the department with a proactive approach to risk management in all aspects of the business.

In-Year Management and Monthly/Quarterly Report

Based on the quarterly review of in-year monitoring systems and reports, the Audit Committee is not satisfied with the quality, accuracy, usefulness, reliability, appropriateness, and adequacy of the department in-year reporting systems. The year-end reporting and review of both the annual financial statements and annual performance report should significantly improve to avoid adjustments after submission to the AGSA.

Internal Audit

The Audit committee:

- Reviewed and approved the annual Internal Audit plans and evaluated the independence, effectiveness and performance of the internal audit function;
- Considered the reports of the Internal Auditors on the department's systems of internal control; and
- Reviewed issues raised by internal audit and the adequacy of corrective action taken by management in response thereto.

Combined assurance

The Audit committee reviewed the plans and reports of the external and internal auditors and other assurance providers including management and concluded that the internal audit unit should finalise the fully implementation of Combined assurance framework.

Compliance with the relevant laws and regulations

The Audit Committee considered reports provided by management, internal assurance providers and the independent auditors regarding compliance with legal and regulatory requirements and concluded that the department did not fully comply with the enabling laws and regulations as well as its departmental policies and standard operating procedures, especially in the area of quality of annual financial statement, strategic planning and performance management, revenue management, asset management, consequence management, and procurement and contract management (including expenditure management).

Evaluation of Annual Financial Statements

Following the review by the Audit Committee of the annual financial statements for the year ended 31 March 2024 before and after the audit, the committee is of the view that the annual financial statements, except for the effects and possible effects of the basis for qualified opinion (accrued department revenue) fairly present, in all material respect, the financial position of the department for the year under review and can be incorporated into the annual report.

Evaluation of Annual Performance Report

Following the review by the Audit Committee of the annual performance report for the year ended 31 March 2024 before and after the audit, the committee is of the view that, annual performance report can be incorporated into the annual report.

Consideration of the Final Audit report

The Audit Committee considered final audit report and concurs with the AGSA's qualified

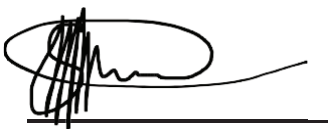

audit opinion. Furthermore, the Audit Committee is concerned of the stagnant from unqualified with finding to qualified opinion. The department should accelerate efforts to satisfactorily resolve the internal control weaknesses that led to the identified internal control deficiencies, non-compliance and material misstatements. Furthermore, the department must also ensure that AGSA findings from the previous financial years are addressed.

Conclusion

The Audit Committee is of the opinion that it is possible for the department to move from qualified opinion to clean audit opinion if management is committed to:

- Establishing a stable leadership that is committed to a robust control environment and effective governance;
- Diligently observe basic discipline of accounting and records management;
- Sufficient management review and supervisory checks;
- Closely monitoring the implementation of the audit action plan, internal audit action plan and audit committee recommendations;
- Persistently inculcating a culture of ethical leadership, good governance, and accountability;
- Ensuring management act on the recommendations of all the oversight structures to strengthen internal controls and improve governance;
- Advocating for swift consequences for all reported irregularities and poor performance; and
- Ensuring that all critical vacancies are always filled.

We are optimistic that with appropriate intervention and concerted effort from management the department will strengthen governance and improve the internal control environment which will result to improved audit outcomes.

Human Resources Management

1. INTRODUCTION

The information contained in this part of the annual report has been prescribed by the Minister for the Public Service and Administration for all departments in the public service.

2. OVERVIEW OF HUMAN RESOURCES

The department's Human Resource Component plays a critical role in building a team of working professionals. It provides support function and leverage service delivery to other programmes in the department. The fundamental functions of the HR unit include organisational design, recruitment, training human capital, performance appraisals and employee motivation. In a quest to realise its objectives, the department implements an integrated Human Resource Plan annually which comprises amongst other plans, the Recruitment Plan and a Workplace Skills Plan for the capacitation of critical areas of the department. The department complies with the prescribed vacancy rate of 10%. The vacancy rate dropped from 4.9% to 3% in the current financial year. The department is currently at 3% which is compliant with the prescribed vacancy rate of 10%.

The department acknowledges that the health and wellness of its employees is directly and indirectly linked to production and quality of work. The department is therefore committed to enhancing and maintaining the employee's health and wellness, including the quality of their working life and appropriate environment thus enhancing productivity and service delivery. The department is further responsible and committed to preventing occupational injuries and diseases in the workplace by continually providing health and safety control measures in line with the available legislations, regulations, codes, standards and practices. Awareness sessions conducted on all the 4 Pillars of EHW. Workplace screenings for non-communicable diseases.

The department is entrusted with a mandate to deliver quality infrastructure for the provincial government. In order to fulfil this mandate, there is an ever-present need for skilled personnel in order to improve productivity, service delivery and sustainability within a fast growing and competitive environment. To achieve this, the department invests in the training and development of its human resource through the Workplace Skills Plan that is developed and implemented annually. Such training initiatives and priorities conform to the broader national

priorities laid down in the South African training legislations, from which the capacity building programmes are derived, and are also be linked to the departmental Five-Year Strategy and the MTEF Human Resource Plan. Currently the status of SMS women is at 34%, Departmental over-all women representation: 40%, people with disability is at 1.6%

The following have been identified as some of the main human resource challenges in the department:

- Difficulty in attracting and retaining scarce skills especially the built environment professions.
- Delays to replace employees when they exit
- Insufficient registered built environment professionals in the Department.
- Lack of funds for training intervention
- Inadequate management of Human Resources Information
- Limited number of posts in the new approved organisational structure.

The department subscribes to the Provincial Performance Management and Development System (PMDS) Policy for level 1-12, approved in 2018 and Chapter 4 of the Senior Management Service (SMS) Handbook, 2006 on performance management of SMS members. The main purpose of the PMDS is to; enhance performance at strategic and operational levels of the department by teams and individuals to achieve desired results, to identify individual's potential, strengths, weaknesses and align them to the departmental priorities and strategies, identify and remedy poor performance and to provide a framework for recognising and rewarding good performance. 99% of compliance achieved on submissions for PMDS documents.

Action plans were put in place to ensure that the processes to mitigate risks and challenges identified in human capital management are undertaken. Whilst some improvement in the controls, systems and processes implementation are evidenced in compliance with human resources policies, more strategic and operational interventions are still required in the quest to institutionalise world-class human resource practices in the Department.

3. Employment and Vacancies

The tables in this section summarise the position with regard to employment and vacancies.

The following tables summarise the number of posts on the establishment, the number of employees, the vacancy rate, and whether there are any staff that are additional to the establishment.

This information is presented in terms of three key variables:

- programme
- salary band
- critical occupations (see definition in notes below).

Departments have identified critical occupations that need to be monitored. In terms of current regulations, it is possible to create a post on the establishment that can be occupied by more than one employee. Therefore, the vacancy rate reflects the percentage of posts that are not filled.

Table 3.2.1 Employment and vacancies by programme as on 31 March 2024

Notes

- The CORE classification, as prescribed by the DPSA, should be used for completion of this table.
- Critical occupations are defined as occupations or sub-categories within an occupation –
 - (a) In which there is a scarcity of qualified and experienced persons currently or anticipated in the future, either because such skilled persons are not available or they are available but do not meet the applicable employment criteria;
 - (b) For which persons require advanced knowledge in a specified subject area or science or learning field and such knowledge is acquired by a prolonged course or study and/or specialised instruction;
 - (c) Where the inherent nature of the occupation requires consistent exercise of discretion and is predominantly intellectual in nature; and
 - (d) In respect of which a department experiences a high degree of difficulty to recruit or retain the services of employees.

Notes

- In terms of the Public Service Regulations Chapter 1, Part VII C.1A.2, departments must indicate good cause or reason for not having complied with the filling of SMS posts within the prescribed timeframes. In the event of non-compliance with this regulation, the relevant executive authority or head of department must take appropriate disciplinary steps in terms of section 16A(1) or (2) of the Public Service Act.

5. Job Evaluation

Within a nationally determined framework, executing authorities may evaluate or re-evaluate any job in his or her organisation. In terms of the Regulations all vacancies on salary levels 9 and higher must be evaluated before they are filled. The following table summarises the number of jobs that were evaluated during the year under review. The table also provides statistics on the number of posts that were upgraded or downgraded.

Table 3.4.1 Job Evaluation by Salary band for the period 1 April 2023 and 31 March 2024

Salary band	Number of posts on approved establishment	Number of Jobs Evaluated	% of posts evaluated by salary bands	Posts Upgraded		Posts downgraded

The following table provides a summary of the number of employees whose positions were upgraded due to their post being upgraded. The number of employees might differ from the number of posts upgraded since not all employees are automatically absorbed into the new posts and some of the posts upgraded could also be vacant.

Table 3.4.2 Profile of employees whose positions were upgraded due to their posts being upgraded for the period 1 April 2023 and 31 March 2024

The following table summarises the number of cases where remuneration bands exceeded the grade determined by job evaluation. Reasons for the deviation are provided in each case.

Notes

- The CORE classification, as prescribed by the DPSA, should be used for completion of this table.
- Critical occupations are defined as occupations or sub-categories within an occupation –
 - In which there is a scarcity of qualified and experienced persons currently or anticipated in the future, either because such skilled persons are not available or they are available but do not meet the applicable employment criteria;
 - For which persons require advanced knowledge in a specified subject area or science or learning field and such knowledge is acquired by a prolonged course or study and/or specialised instruction;
 - Where the inherent nature of the occupation requires consistent exercise of discretion and is predominantly intellectual in nature; and
 - In respect of which a department experiences a high degree of difficulty to recruit or retain the services of employees.

The table below identifies the major reasons why staff left the department.

Financial Information

Report of the auditor-general to Limpopo Provincial Legislature on vote no. 9: Department of Public Works, Roads and Infrastructure

Report on the audit of the financial statements

Qualified opinion

1. I have audited the financial statements of the Department of Public Works, Roads and Infrastructure set out on pages 172 to 295, which comprise the appropriation statement, statement of financial position as at 31 March 2024, statement of financial performance, statement of changes in net assets, and cash flow statement for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the effects and possible effects of the matters described in the basis for qualified opinion section of this auditor's report, the financial statements present fairly, in all material respects, the financial position of the Department of Public Works, Roads and Infrastructure as at 31 March 2024 and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standards (MCS) and the requirements of the Public Finance Management Act 1 of 1999 (PFMA) and the Division of Revenue Act 5 of 2023 (DoRA).

Basis for qualified opinion

Accrued departmental revenue

3. Inconsistencies were identified in the completeness of billing of tenants as the department did not implement adequate internal controls. Furthermore, the billing of tenants on water and electricity was not charged in accordance with the approved rental tariffs whereas some tenants were not billed at all for services received. Consequently, accrued departmental revenue is understated by R68 075 858 (2022- 23: R42 206 566) in note 30 to the financial statements.
4. I was unable to obtain sufficient appropriate audit evidence that accrued departmental revenue for the current and previous year had been properly accounted for, due to the status of the accounting records. I was unable to confirm whether all the accrued departmental revenue were recorded by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to accrued departmental revenue stated at R151 413 000 (2023: R117 629 000.) in the financial statements.

Context for opinion

5. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
6. I am independent of the department in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.

7. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Emphasis of matters

8. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

9. As disclosed in note 43 to the financial statements, the corresponding figures for 31 March 2023 were restated as a result of an error in the financial statements of the department at, and for the year ended, 31 March 2024.

Litigations and claims

10. With reference to note 25 to the financial statements, the department is the defendant in numerous claims relating to potholes and other claims. The ultimate outcome of these matters could not be determined and no provision for any liability that may result was made in the financial statements.

Events after the reporting period

11. I draw attention to note 37 in the financial statements, which deals with subsequent events and specifically the possible effects on the department. My opinion is not modified in respect of this matter.

Other matter

12. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary schedules

13. The supplementary information set out on pages 296 to 328 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

Responsibilities of the accounting officer for the financial statements

14. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the MCS and the requirements of the PFMA and DoRA; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
15. In preparing the financial statements, the accounting is responsible for assessing the department's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the department or to cease operations, or has

no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

16. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
17. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report. This description, which is located at page **166** of the annexure to the auditor's report, forms part of our auditor's report.

Report on the audit of the annual performance report

18. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected programmes presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
19. I selected the following programmes presented in the annual performance report for the year ended 31 March 2024 for auditing. I selected programmes that measures the department's performance on its primary mandated functions and that are of significant national, community or public interest.

Programme	Page numbers	Purpose
Infrastructure operations	45 -55	To manage provincial government and facilities, manage infrastructure and maintenance for health, education and provincial department
Expand Public Works Programme	57 - 58	To manage creation of work opportunities
Road infrastructure	60 - 64	To manage road infrastructure in the province

20. I evaluated the reported performance information for the selected programmes against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the department's planning and delivery on its mandate and objectives.

21. I performed procedures to test whether:

- The indicators used for planning and reporting on performance can be linked directly
- To the department's mandate and the achievement of its planned objectives.
- All the indicators relevant for measuring the department's performance against its primary mandated and prioritised functions and planned objectives are included.
- The indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements.
- The targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.
- The indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents.
- The reported performance information is presented in the annual performance report in the prescribed manner and is comparable and understandable.
- There is adequate supporting evidence for the achievements reported and for the reasons provided for any over- or underachievement of targets.

22. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.

23. The material findings on the reported performance information for the selected programmes are as follows:

Infrastructure operation

Maintenance of immovable infrastructure

24. The department is responsible for maintaining immovable assets as custodian of the immovable assets in terms of the Government Immovable Asset Management Act no 19 of 2007 (GIAMA). However, indicators to measure performance on this objective were omitted from the approved planning documents. Consequently, the achievement of this objective was not planned or accounted for, which is likely to result in it not being delivered and undermines transparency and accountability on the progress towards achievement of service delivery.

Expanded Public Works Programme

25. I did not identify any material findings on the reported performance information for the selected programme.

Road infrastructure

26. I did not identify any material findings on the reported performance information for the selected programme.

Other matter

27. I draw attention to the matter below.

Achievement of planned targets

28. The table that follows provide information on the achievement of planned targets and list the key indicators that was not achieved as reported in the annual performance report. The reasons for any underachievement of target is included in the annual performance report on pages 42 to 64.

Infrastructure operations

Education infrastructure management

Targets achieved: 93% Budget spent: 95%.		
Key indicator not achieved	Planned target	Reported achievement
Number of new education construction projects completed	5	0

Report on compliance with legislation

29. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the department's compliance with legislation.

30. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.

31. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the department, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.

32. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

Annual financial statements, performance and annual report

33. The financial statements submitted for auditing were not prepared in accordance with the prescribed financial reporting framework and/or supported by full and proper records as required by section 40(1)(b) of the PFMA.

Material misstatements identified by the auditors in the submitted financial statements were not

adequately corrected and/or the supporting records could not be provided, which resulted in the financial statements receiving a qualified opinion.

Revenue management

34. Appropriate processes were not implemented to provide for the identification, collection, recording and reconciliation of revenue, as required by treasury regulation 7.2.1.
35. Effective and appropriate steps were not taken to collect all money due, as required by section 38(1)(c)(i) of the PFMA.

Asset management

36. Proper control systems were not in place at the department to ensure the safeguarding of assets, as required by section 38(1)(d) of the PFMA.
37. Preventative mechanisms were not in place to eliminate loss, wastage and misuse of assets, as required by treasury regulation 10.1.1(a).

Expenditure management

38. Effective and appropriate steps were not taken to prevent irregular expenditure, as disclosed in note 31 to the annual financial statements, as required by section 38(1)(c)(ii) of the PFMA and treasury regulation 9.1.1. The majority of the irregular expenditure was caused by household contract where bidders failed minimum qualifying criteria.

Strategic planning and performance management

39. Specific information systems were not implemented to enable the monitoring of progress made towards achieving targets, core objectives and service delivery as required by public service regulation 25(1)(e)(i) and (iii).

Consequence management

40. I was unable to obtain sufficient appropriate audit evidence that disciplinary steps were taken against officials who incurred irregular expenditure as required by section 38(1)(h)(iii) of the PFMA. This was because investigations into irregular expenditure were not performed.

Procurement and contract management

41. Some of the quotations were not awarded in an economical manner and/or the prices of the goods or services were not reasonable as required by PFMA 38(1)(b), PFMA 45(b).
42. Some of the tenders which failed to achieve the minimum qualifying score for functionality criteria were not disqualified as unacceptable in accordance with 2017 preferential procurement regulation 5(6). This non-compliance was identified in the procurement processes for routine maintenance projects.
43. Some of the tenders which achieved the minimum qualifying score for functionality criteria were not evaluated further in accordance with 2017 preferential procurement regulation 5(7).

This non-compliance was identified in the procurement processes for the routine maintenance projects.

44. Some of the contracts were awarded to bidders based on pre-qualification criteria that differed from those stipulated in the original invitation for bidding, in contravention of the 2017 preferential procurement regulation 4(1) and 4(2).

Other information in the annual report

45. The accounting officer is responsible for the other information included in the annual report which includes the audit committee's report. The other information referred to does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported on in this auditor's report.
46. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
47. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
48. The other information I obtained prior to the date of this auditor's report are the accounting officer's report and irregular, fruitless and wasteful expenditure, unauthorised expenditure and material losses. All other outstanding reports including the audit committee are expected to be made available to us after 31 July 2024.
49. I have performed work on the other information obtained prior to the date of this auditor's report and I concluded that there were no material misstatements identified.
50. When I do receive and read the audit committee and other outstanding reports, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

51. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
52. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion, the material findings on the annual performance and the material findings on compliance with legislation included in this report.

53. The accounting officer and management did not perform adequate reviews on the financial statements, performance reporting and compliance with laws and regulations.
54. The basic accounting principles of daily and monthly accounting and reconciling of transaction were not adequately implemented and monitored by management.
55. The accounting officer did not adequately review the financial statements and annual performance report for accuracy and completeness.
56. Internal controls for monitoring compliance with laws and regulations were ineffective as they did not detect and prevent instances of non-compliance with applicable laws and regulations.

Material irregularities

57. In accordance with the PAA and the Material Irregularity Regulations, I have a responsibility to report on material irregularities identified during the audit and on the status of material irregularities as previously reported in the auditor's report.

Material irregularity identified during the audit

58. The material irregularity identified is as follows:

Payments of electricity to officials who rent government properties.

59. The department entered into lease agreements with various government employees for the provision of accommodation. As per the lease agreements, the lessees are liable for charges of the property, including charges of electricity. Although the lease agreement states that the lessee will be responsible for charges of electricity, the department has not charged the tenants for electricity consumption and has been paying for the tenant's electricity consumption. The non-compliance resulted in a material likely financial loss of R1 213 021.
60. The accounting officer was notified of the material irregularity (MI) on 30 August 2023 and invited to make a written submission on the actions taken to address the matter. The accounting officer responded on 13 September 2023, 6 February 2024 and 17 July 2024. The following actions have been taken to address the MI:
- Completed the installation of prepaid meters at the districts (Waterberg, Sekhukhune, Vhembe and Mopani) in the unmetered houses. The installation projects was initiated from 29 November 2023 and final handover completed on 11 April 2024.
 - Commissioned a forensic investigation on 31 January 2024 to determine the value of the financial loss, identify the person(s) and/or official(s) responsible for the transgressions and propose internal control systems to prevent recurrence of the audit finding. The outcome of the investigation will be concluded on 31 September 2024.
 - Establishment of an accrued revenue task team from 1 February 2024 led by the CFO consisting of various divisions (e.g. finance, property and facilities, and internal control) with the support of DBSA technical unit to deal with the outcomes of the forensic investigation.

61. As of to date, the following actions were still ongoing:

- Internal control and compliance unit implements effective reviews of the tenant audit performed by the districts on a quarterly basis since 1 October 2023 to date.
- Introduction of global tariffs to ensure consistent billing of electricity since 1 December 2023 to date.
- Implementation of controls, from 1 December 2023, over the billing and collection of water and electricity.

62. I will follow up on the outstanding actions during my next audit.

Status of previously reported material irregularities

Routine road maintenance contract awarded to bidder that did not score the highest points

63. The department awarded a three-year contract to the amount of R40 791 448 in September 2018 for the supply of household based routine road maintenance to a bidder that did not score the highest points, in contravention of section 2(1)(f) of the Preferential Procurement Policy Framework Act 5 of 2000 (PPPFA). The non-compliance resulted in a material financial loss of R1 624 230. The accounting officer was notified of the MI on 4 March 2021 and invited to make a written submission on the actions taken to address the matter.

64. The accounting officer requested the Special Investigating Unit (SIU) to perform a forensic investigation into the identified MI on 3 June 2021. The SIU concluded its investigation in January 2022. Following the SIU report, the accounting officer instituted an internal investigation on 8 April 2022 which was concluded on 7 June 2022.

65. I made an assessment of the loss and concluded that recovery from the supplier is not necessary as the bid amount was sufficient for the services provided. The department received value from the supplier as the maintenance was done in accordance with the required specifications.

66. The accounting officer instituted disciplinary actions based on the outcome of the internal investigation. The disciplinary hearings started on 1 September 2022 and were concluded on 31 July 2023. The implicated officials were sanctioned one month suspension from work without pay during October 2023 and a final written warning.

67. The irregularity was also reported to the Directory for Priority Crime Investigation on 6 June 2022 in line with section 34 of the Prevention and Combating of Corrupt Activities Act 12 of 2004.

68. I received a written submission on actions taken to address the MI on 7 November 2023 and additional evidence on 8 February 2024. I considered the representations made and the substantiating documents provided and concluded that appropriate actions have been taken to address the MI. Therefore, I will not pursue this matter any further.

Other reports

69. In addition to the investigations relating to material irregularities, I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.

70. The provincial treasury is conducting two investigations relating to the requirements of procurement processes in line section 217 of the Constitution and the related supply chain management prescripts, reasonability of the variation orders and allegations of fraudulent activities, maladministration and collusion. The investigations were on-going at the date of the report.

Auditor-General

**AUDITOR - GENERAL
SOUTH AFRICA**

Auditing to build public confidence

Annexure to the auditor's report

The annexure includes the following:

- The auditor-general's responsibility for the audit
- The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programmes and on the department's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- Conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the department to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a department to cease operating as a going concern
- Evaluate the overall presentation, structure and content of the financial statements,

including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

2. Detail of specifically and exclusively appropriated amounts voted (after Virement)

Detail of these transactions can be viewed in note 1 (Annual Appropriation) to the Annual Financial Statements.

3. Detail on payments for financial assets

Detail of these transactions can be viewed in the note on Payments for financial assets to the Annual Financial Statements.

4. Explanations of material variances from Amounts Voted (after Virement):

4.1 Per programme

Programme	Final Budget	Actual Expenditure	Variance	Variance as a % of Final Budget
	R'000	R'000	R'000	%
Administration	468 467	440 168	28 299	6%
Total	468 467	440 168	28 299	6%

The programme had 40 service terminations and delays in the implementation of the 2022/23 and 2023/24 recruitment plans. Delays in the procurement of the forensic audit for the material irregularity incurred on rental management matters as reported by AGSA with an underspending of R2.089 million, physical security allocation underspent by R4.137 million due to the penalties charged on non-compliance to security contract terms and the delays in the appointment of new contract, the new contract on telephone system has reduced the cost and saved the department R1.040 on landline account, the ICT equipment allocation underspent by R16.031 million because of unavailability of stock as the contributing challenge towards delivering the 225 laptops, 2 core switches and boardroom solutions on time. for the year ended 31 March 2024**

16.4 Project costs: Work-in-progress

Expenditure of a capital nature is initially recognised in the statement of financial performance at cost when paid.

Amounts paid towards capital projects are separated from the amounts recognised and accumulated in work-in-progress until the underlying asset is ready for use. Once ready for use, the total accumulated payments are recorded in an asset register. Subsequent payments to complete the project are added to the capital asset in the asset register.

Where the department is not the custodian of the completed project asset, the asset is transferred to the custodian subsequent to completion.

17. Provisions and contingents

17.1 Provisions

Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

17.2 Contingent liabilities

NOTES TO THE ANNUAL FINANCIAL STATEMENTS
for the year ended 31 March 2024

Claims against the department represents all claims against the department from Potholes claims and delictual claims. The department developed standard operating procedure for the management and disclosure of contingent liabilities.

During prior year department removed finalised cases, claims that does not meet definition of contingent liability as per MCS and that resulted in decrease on the claims against the state closing balance of 2023/24 FY. Such cases will only be recorded under the Contingent register of Legal services and not for the purpose of disclosure in the AFS.

New cases registered during the current year best estimate value assessed amounts to R'477, department settled 1 case of claim against at R'40 relating to 2018/19 financial year.

Claim against the department has decreased by R'14 976 of which the material decrease resulted from a claim of R12680 that was resolved through court settlement where the department opted on purchasing the property.

Potholes movement of previous years not resolved decreased due to assessment performed and removal of cases where the department is not 1st responded and dormant cases that are older than 3 years without any correspondences in relation to the claims.

Department also complied with MCS chapter 14 paragraph 50 that states "Where a department is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability. The claim will be fully disclosed at summon amount until the 1st defendant register the claim in their books.

It is uncertain of the timing of outflow on disclosed contingent liabilities and impracticable to determine the exact possibility of any reimbursement pending decision by court.

The department has appointed a service provider for Forensic Investigation Audit on rental management. The investigation is currently in progress, with the project expected to be completed and report issued by 31 July 2024.

In the meantime, management has developed and implemented an internal action plan to address prior year audit findings related to accrued revenue. The attached progress report for the 2023/24 financial year provides full details of the actions taken and future plans to resolve all outstanding issues on rental management.

The accrued departmental revenue includes tenants' accrued rental billing and services, and shared building water, electricity and municipal services.

Additionally, the closing balance for the previous financial year 2022-2023 has been restated from R'117 743 to R'117 629. Please refer to the attachment labelled N43 for details on the prior period error, which was based on system and billing reports that now include services (electricity and water) previously excluded. This adjustment affected the prior year's closing balance.

The end of November 2023, the department held an auction for the sale of assets, generating R'12745 and receiving a part payment of R'12526. This results in an accrued revenue of R'219 and creation of a corresponding debt.

In terms of MCS chapter 4 paragraph 30 (C), impracticality of ascertaining accurate accrued revenue from rental stock 2023/24 FY. Retrospective restatement requires significant estimates of financial amounts and it is impossible to discern objective information that existed on the date the amounts to be recognised, measured and disclosed especially due to discordance on condition of the rental stock, housing register and appropriate leases at the time. (refer to attached statement of impracticality not disclosure supporting documents under Note 30 folder)

The department held an auction for sale of assets at the end of November 2023 amounting to R'12745 and received part payment of R'12526. Accrued revenue is R'219 and debt has been created. The closing balance of previous financial year 2022-2023 of R'117 743 has been restated to R'117629, which was based on system and billing reports that now include services (electricity and water) previously excluded- see attachment on N43 for prior period error.

The department has received advance payments amounting to R3480 less prior period R'2848 and the balance is credited against billing.

Accrued revenue includes shared building services for water and electricity from various provincial departments amounting to billing of R20 528 and receipts of R2872 and the balance in the current year amounts to R 17 656.

30.2. Accrued departmental revenue written off

Nature of losses	Note	2023/24 R'000	2022/23 R'000
Irrecoverable Rental Debt		-	11 817
Total		-	11 817

The department has restated the opening balance for Impairment of Accrued Departmental Revenue by an amount of R'624. The restatement is informed by correction of 2022-23 audited understatement of Write Off amount of R'672. This is an uncorrected misstatement of Debt Write Off for 2022-23, this resulted from difference of R'672 between the write off amount on the approved memorandum R'11 817 and amount disclosed in the AFS 2022-23 R'11 145 identified during audit (Comaf 32), and prior period error corrected as indicated on Note 43. No rental irrecoverable written off in the current year.

The department implemented incorrect tariffs during 2022/23 and 2023/24 financial year which resulted in financial loss of rental revenue of R3235 for wrong tariffs and R3231 for illegal occupation of houses in all districts.

Estimate of impairment of accrued departmental revenue		120 713	106 743
Total		120 713	106 743

The department has restated the opening balance for Impairment of Accrued Departmental Revenue by an amount of R'624. The restatement is informed by correction of 2022-23 audited understatement of Write Off amount of R'672. This is an uncorrected misstatement of Debt Write Off for 2022-23, this resulted from difference of R'672 between the write off amount on the approved memorandum R'11 817 and amount disclosed in the AFS 2022-23 R'11 145 identified during audit (Comaf 32), and prior period error corrected as indicated on Note 43.

Department estimates the recoverable amount of the rental debt. An impairment loss is recognised when the carrying amount of the rental debt exceeds its recoverable amount.

31. Unauthorised, Irregular and Fruitless and wasteful expenditure

	Note	2023/24 R'000	2022/23 R'000
Unauthorised expenditure - current year		-	-

Fruitless and wasteful expenditure - current year		27 763	190
Total		442 074	164 005

Irregular expenditure of R'354 406 is incurred from April to March 2024 from historic term of contracts of Roads routine households' maintenance projects identified during 2022-23 FY on non-compliance with SCM prescripts on Bids administration, and other suppliers for SCM non-compliance procurements. Current year project for Paved and Unpaved roads has incurred irregular expenditure amounting to R'54 220 and other suppliers of R'5608 were identified during current year audit. Moreover, there is irregular expenditure incurred due to goods procured not using a reasonable price amounting to R'77 also identified during audit. Based on 2022-23 audit, the department has restated the opening balance of Irregular expenditure to include the understatement of R127993. Total fruitless and wasteful expenditure for current year is (R'65+R'598+R'27 109= R'27 763). The incurred fruitless and wasteful expenditure is for municipal and Eskom overdue accounts amounting to R'65, of which R'59 is for municipal services overdue accounts and R'6 for penalties on vehicle licencing. The R'589 human resource case at Head Office for the amount paid to the official who was on suspension. There is fruitless and wasteful expenditure amounting to R'27 109 incurred on payment of remedial work done on Revitalisation of Maphutha Malatjie (OPD) LDWRI - B/15004 R'66012 project identified during audit.

registered properties). As a result, these assets were excluded during reporting in prior years. Furthermore, there were prior period errors, resulting from the use of Depreciated Replacement Cost (DRC) values which were not supported as a result the department sought for and used municipal values, and R1000 were the municipal value is not available. As a result, there was a decrease in the opening balance of R5 405 for dwellings, R'1 102 for heritage, R'211 337 for land and R'1 263 398 for Non-Residential. Furthermore, there has been an increase of R'30 for land, R'7 212 for heritage assets and R'127 433 for non-residential.

Department paid management fees of R'1049 +R'1004 to DBSA implementing agent in the current financial year. The department is the custodian of immovable assets in the province. The department has entered into service level agreements with the various user departments to deliver infrastructure projects on their behalf. Majority of the projects are for the Departments of Education and Health and include construction projects on Hospitals, schools, clinics and other build projects.

The department has in turn contracted DBSA/IDT to deliver some of projects of the user departments due to capacity constraints. DBSA/IDT act as implementing agents and will source contractors and render project management services. Management fees and all related expenses in terms of these arrangement are incurred by the user departments. This arrangement has no financial impact on the department. The department's revenues, expenditures, assets and liabilities are not affected by these arrangements. For the current financial year, the Department has no projects running with IDT.

Net effect		7 129 704	-1 346 633	5 783 071

The accrued departmental revenue closing balance for the previous financial year 2022-2023 has been restated from R'117 743 to R'117 629. Please refer to the attachment labelled N43 for details on the prior period error, which was based on system and billing reports that now include services (electricity and water) previously excluded. The net effect is -R114 and breakdown of restatement is as follows:

Opening balance - R'117 089

Amount received - R'19 583

Amount recorded - R'31 518

Amount written off - R'11817

Advance payment received - R'422

Difference amount between the write off amount on the approved memorandum and amount disclosed in the AFS identified during audit (Comaf 32). Correction of this misstatement affected Note 30.3 of the impairment of accrued revenue amount that was previously disclosed."

For the 2023/24 financial year, there were prior period errors due to four assets amounting to R'118 201 that were not reflecting on the IAR due to incorrect immovable asset classification, namely Higher Education and A2 instead of A1. According to immovable asset classifications, departments are report on A1s (i.e. registered properties). Furthermore, there were prior period errors, resulting from the use of Depreciated Replacement Cost (DRC) values which were not supported as a result the department sought for and used municipal values, and R1000 were the municipal value is not available. As a result, there was a decrease in the opening balance of R5 405 for dwellings, R'1 102 for heritage, R'211 337 for land and R'1 263 398 for Non-Residential. Furthermore, there has been an increase of R'30 for land, R'7 212 for heritage assets and R'127 433 for non-residential.

The difference of expenditure between Trial Balance and Inventory, which resulted from Fuel refund to the value of R'230 from Office of the Premier. This is as a result of the diesel that was issued to the Office of the Premier during the financial year 2023-24 and cash refund of R'230 was made in March 2024 and journalised back to the inventory allocation, this refund reduced expenditure by R'230.

Amount of 126 for fuel and 520 for material are for Inventories received prior financial year 2022-23 but paid current financial year 2023-24. Adjustment amount is made up of R'431 is as a result of shortage of fuel at Capricorn District, and R'198 resulted from overpayment of fuel at Waterberg district. An amount of R'14 is as a result of Inventories (materials) received during the current financial but not yet paid.
